

## **Project Manager For Enterprise Content Management**

Department of Information and Innovation (DII)

DII provides direction and oversight for information technology activities within state government. We're currently looking for an experienced Project Manager to join DII's Enterprise Project Management Office (EPMO). This individual will focus on providing leadership for Enterprise Content Management (ECM) projects on behalf of the State of Vermont. ECM encompasses all aspects of data management including strategies, methods and tools.

The ideal candidate is a good communicator and team builder, who prides himself/herself on providing good customer service. He/She is well versed in the Project Management Institute standards for project management and has successfully managed medium to large sized technology projects. Preference will be given to candidates that possess a Project Management Professional certification. Experience with enterprise content management is desired, but not required.

Do you want to use your leadership and project management skills to make a difference for the State of Vermont? This job provides a real opportunity to bring value to the State, while offering challenging and interesting work to the right candidate. Sound intriguing? For more information contact Martha Haley at [martha.haley@state.vt.us](mailto:martha.haley@state.vt.us) Reference Job ID# 616083. Resumes will not be accepted via e-mail. You must apply online to be considered at <http://humanresources.vermont.gov/career>. Application deadline is 12/14/2014. Job location is in Montpelier, but some travel to state offices in Chittenden County may be necessary.
